- Folate Supports healthy red blood cell formation.
- Boron A component for bone tissue.
- Complements Nikken OsteoDenx® In combination, offers a program for maintaining healthy bones.

CALDENX® (CN)
QUICK REFERENCE SHEET

THE FACTS

- Nikken CalDenx® and Nikken OsteoDenx® offer a practical program to help support healthy bones and joints, as complementary formulations. Dr. A. S. Naidu developed these two products to work together, with OsteoDenx to support bone health, and CalDenx to provide the calcium and other minerals necessary for this process.
- CalDenx supports the natural process of bone tissue replacement throughout every stage of life.
- CalDenx offers impressive amounts of the mineral compounds recognized as supporting bone and joint health. Its 900 milligrams of calcium equals 90% of the U.S. Daily Value.
- The United States Department of Agriculture reports that three-quarters of the American population do not have enough magnesium in their diets. The magnesium in CalDenx is equivalent to 56% of the U.S. Daily Value. Magnesium aids in maintenance of healthy teeth and bones.
- In addition, the levels of Vitamin D (225% of Daily Value), Vitamin K, boron, folate and chromium further support bone health.
- Many conventional calcium supplements are often bulky or chalky and thus difficult for many to tolerate. CalDenx is provided in convenient tablet form.

Each Tablet Contains / Chaque Tablette contient :
Medicinal Ingredients / Ingrédients médicinaux :

Vitamin D (cholecalciferol) / Vitamine D (cholecalciférol)	7.5 µg (300 IU)
Vitamin K (as phytonadione) / Vitamine K (comme la phytoménadione)	40 µg
Folate (as folic acid) / Folique (comme acide folique)	60 µg
Calcium (as calcium carbonate and calcium citrate) / Calcium (comme carbonate de calcium et citrate de calcium)	300 mg
Magnesium (as magnesium oxide) / Magnesium (comme oxyde de magnésium)	75 mg
Chromium (as chromium chloride) / Chromium (comme chlorure de chrome)	15 µg
Boron (Sodium borate) / Boron (Borate de sodium)	200 µg

Non-medicinal Ingredients (in alphabetical order) : Calcium stearate, carnauba wax, croscarmellose sodium, hydroxypropyl cellulose, hypromellose, microcrystalline cellulose, polyethylene glycol, polysorbate 80, silicon dioxide, sodium citrate dihydrate, stearic acid, titanium dioxide.

Ingrédients non-médicinaux (dans l'ordre alphabétique) : Stéarate de calcium, cire de carnauba, sodium de croscarmellose, cellulose hydroxypropylique, hypromellose, cellulose microcristalline, polyéthylène glycol, polysorbate 80, dioxyde de silicium, citrate sodique dihydraté, acide stéarique, dioxyde de titane.

PRODUCT INFORMATION	
ITEM CODE	DESCRIPTION
#15584	CalDenx® (US)
#13384	CalDenx® (CN)
AVAILABILITY	
US: YES CN: YES	
HOW TO USE	
Take three tablets per day. 90 tablets per container	
WARRANTY	
30-day satisfaction guaranteed. Two-year shelf life (if unopened).	

QUICK SHARING TIP

Proper supplementation is a key to wellness — taking steps now to ensure strong bones and teeth can make a major difference later in life.
